## INTRODUCTION

Parts II, V, and VI of this series present the flight crews, the planes they flew, and the combat missions of each. Search methods permit the derivation of the mission list of each individual flight crew.

In developing Parts V and VI, it was attempted to develop the corresponding ground staff for each aircraft to complement the flight crew listing. Unfortunately, the available records for the 380<sup>th</sup> do not relate individual records to particular aircraft except for some ferry flights which were made to New Guinea and Corunna Downs, West Australia. The Hortons in their history also mention several of the aircraft ground crew chief by name, but only for the most famous aircraft.

We have therefore reformatted much of the personnel listing of Part I of the series to allow us to list all aircraft ground crew by MOS (Military Occupational Specialty) or SSN (Service Specialty Number). Please see the MOS listing in Part IV of this series for a complete set of these which were used in the 380<sup>th</sup>.

Part VII-A covered the 380<sup>th</sup> ground staff directly involved in maintenance, arming, and servicing of the group's aircraft.

This Part covers all other ground staff: Administration, Supply, Medical, Mess, etc, and is listed by Department Assigned, Specialty within the Department, and lastly by Squadron in the 380<sup>th</sup> Bomb Group.

#### Block 4, Flight Crew Designations

The Flight Crews were designated by their Aircraft Commander's name and by a numerical listing; both are given here. The crew numbers assigned by the 380<sup>th</sup> changed frequently (at least six times) as additional aircraft and crews were received. The number used for the longest time by each crew was used here. When crews completed their assignments, their existing number was given to the next crew that arrived. Crew numbering ceased abruptly on 15 May 1945. Crews that arrived after that date are designated as (NL) (None Listed).

The aircraft listed is that claimed by the individual in his 380<sup>th</sup> Bomb Group Association Record, or the plane most often flown by that crew, or one in which they were shot down or crashed. The listing is made only when the aircraft carried a name. No serial numbers are used.

## ACKNOWLEDGMENTS

The authors are grateful to Glenn and Gary Horton for their superb contributions to the recording of the history of the 380<sup>th</sup> Bomb Group (H) in the two volumes, *KING OF THE HEAVIES* and, particularly, *THE BEST IN THE SOUTHWEST*. These have been of invaluable help in the compilation of this work.

We acknowledge Purdue University for the use of their computers, printing, web resources, and library facilities in the pursuit of this project. Without these our task would have been impossible.

The Frontispiece of this volume is from *THE BEST IN THE SOUTHWEST*, by Glenn R. Horton, Jr., page 500. It presents several photos of the ground crews as they went about their daily routines.

The authors also want to take this opportunity to acknowledge the patience, love, and forbearance of their spouses, Isabel and Doug, during the long hours, over many years that the work presented herein entailed.
