Block 4, Flight Crew Designations

The Flight Crews were designated by their Aircraft Commander's name and by a numerical listing; both are given here. The crew numbers assigned by the 380th changed frequently (at least six times) as additional aircraft and crews were received. The number used for the longest time by each crew was used here. When crews completed their assignments, their existing number was given to the next crew that arrived. Crew numbering ceased abruptly on 15 May 1945. Crews that arrived after that date are designated as (NL) (None Listed).

The aircraft listed is that claimed by the individual in his 380th Bomb Group Association Record, or the plane most often flown by that crew, or one in which they were shot down or crashed. The listing is made only when the aircraft carried a name. No serial numbers are used.
